

Discover the Benefits of Audible & Tactile Sensory-Enhanced Zippers

Sensus™

SENSORY FEEDBACK FASTENER

Sensus™ is part of the Zip-Pak® family of resealable closures known as Sensory Feedback Fasteners. The sturdy reclosure profile was developed to create a tactile bumping sensation and audible clicking sound when the zipper is both opened and resealed. Sensus™ can be applied to virtually any type of flexible package regardless of pouch size and is especially well suited for form-fill-seal machine applications.

REVOLUTIONARY BENEFITS OF SENSUS™:

- Robust tactile & audial feedback
- Appeals to a consumer's sense of sound & touch
- Unique sealing feature assures that the package has been firmly sealed
- Can be applied to a wide variety of flexible packaging styles
- Constructed of Low Density Polyethylene (LDPE)

SENSUS™ IS IDEAL FOR A BROAD RANGE OF PRODUCTS, INCLUDING:

- Candy
 - Cereal
 - Shredded Cheese
 - Granola
 - Salty Snacks
 - Detergents
 - Pet Treats
 - Pet Food
- ...And Many More!

ZIP-PAK®

We're Uniquely Flexible.
