

# Maintain Product Freshness with Zipper Tape™

Zipper Tape™ is one of the most common resealable packaging styles – used for thousands of packages of frozen foods, poultry, bakery goods and dry goods. Low Density Polyethylene (LDPE) packages can include Zipper Tape™ – complete with an easy-open tear strip, maintaining a hermetic seal, and simplifying access to the contents of the package. The resealable zipper is easily adhered to packaging films, there is no disruption of fill times or production difficulties. Zip-Pak® Zipper Tape™ is an economical way to provide a value-added packaging solution to consumers.

## REVOLUTIONARY BENEFITS OF ZIPPER TAPE™:

- Perfect for large & small format packaging
- Tamper-evident package
- Ideal for a wide range of form-fill-seal machines
- Hermetic seal maintains product freshness
- Easy-open tear-strip for convenient access

## ZIPPER TAPE™ IS IDEAL FOR A BROAD RANGE OF PRODUCTS, INCLUDING:

- Frozen Foods (Poultry, Produce, Seafood, Specialty Items)
- Dry Foods (Popcorn, Rice, Beans)
- Produce (Carrots, Celery, Potatoes, Herbs)
- Lawn & Garden (Potting soil, grass seed)
- ...And Many More!
