

Protect Children with the New Child-Resistant Resealable Solution

Safety-Lok™ CHILD-RESISTANT SLIDER

Safety-Lok™ is the new child-resistant slider zipper from Zip-Pak®: a simple, intuitive one-step opening mechanism providing resistance for children, yet easy access for the intended consumer. Safety-Lok™ Child-Resistant Slider utilizes Zip-Pak innovative slider technology, creating a cost-effective solution designed to keep children safe from harmful products. The key differentiator of Safety-Lok™ Child-Resistant Slider is the proprietary clip mechanism allowing the package to be opened from any position with a light squeeze, creating a wide-mouth opening for easy access to package contents.

REVOLUTIONARY BENEFITS OF SAFETY-LOK™ CHILD-RESISTANT SLIDER:

- Compliant with CFR and ISO standards
- Simple, yet intuitive one step opening from any position
- Wide-mouth opening for superior access to package contents
- More sustainable than competitive slider or rigid packaging alternatives
- Compatible with a variety of packaging substrates & equipment types

SAFETY-LOK™ IS IDEAL FOR A BROAD RANGE OF PRODUCTS, INCLUDING:

- Laundry Detergent Pods
- Dishwasher Pods
- Household Chemicals
- Lawn & Garden
- Pharmaceuticals
- ...And Many More!

ZIP-PAK®

We're Uniquely Flexible.
