

Keep Children Safe  
with the Most Efficient  
Child-Resistant Solution

**Safety•Lok™**

CHILD-RESISTANT PRESS-TO-CLOSE

New Safety-Lok™ Child-Resistant Press-to-Close zipper is a cost-effective solution that easily integrates into current manufacturing operations to provide a child-resistant packaging solution. The key differentiator of the Safety-Lok™ Child-Resistant Press-to-Close is the tab mechanism used to open and access the package contents. The unique tabbed profile provides resistance for younger children, yet it's proven to provide easy accessibility for older consumers challenged by child-resistant packaging.

**REVOLUTIONARY BENEFITS OF SAFETY-LOK™ CHILD-RESISTANT PRESS-TO-CLOSE:**

- Compliant with CFR - Title 16 Part, 1700 standards
- Effective child safe tab provides an easy open for adults
- Technology applicable to a variety of package formats
- Incorporates seamlessly into existing machinery with minor modifications
- This Safety-Lok™ closure is functional for containing numerous hazardous substances in flexible packaging
